

# PIVOT DOOR SKETCH

CONTEST  
2025

## Competition Brief

FritsJurgens®

# About the competition

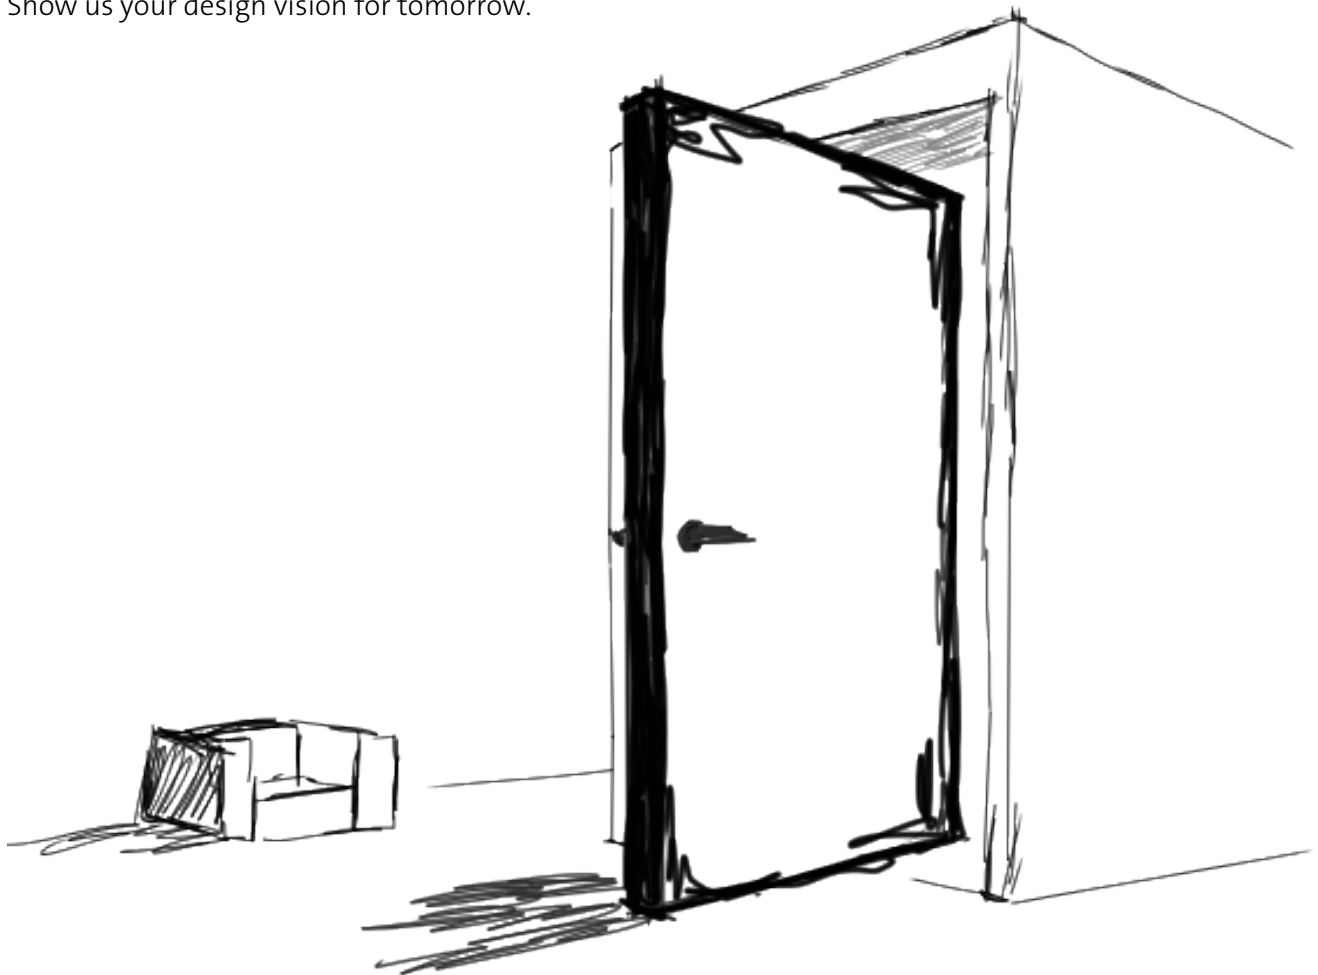

FritsJurgens' first annual design competition is here, with the launch of our Pivot Door Sketch Contest 2025.

This year, we're inviting architects, designers and students to submit their best ideas for innovative, creative, and beautiful uses of our pivot system in a door design.

Your sketch must incorporate our pivot system into the door design, with it clearly visible in your drawing. The sketch must be precise enough for it to be actually be possible to produce.

Include a description or use case alongside your sketches to help us understand the concept.

Open the door to your creativity and the incredible opportunity this contest represents. Show us your design vision for tomorrow.

## We are FritsJurgens

At FritsJurgens, we believe the best designs are intertwined with the most authentic experiences—how a space feels, moves, and responds to the people within it.

We work with architects and designers around the world who push the boundaries of what's possible with pivot doors.

Now, for the first time, we're inviting emerging creatives to step into that space through our Pivot Door Sketch Contest.

This is an incredible opportunity to bring your ideas to life in ways you never dreamed possible.

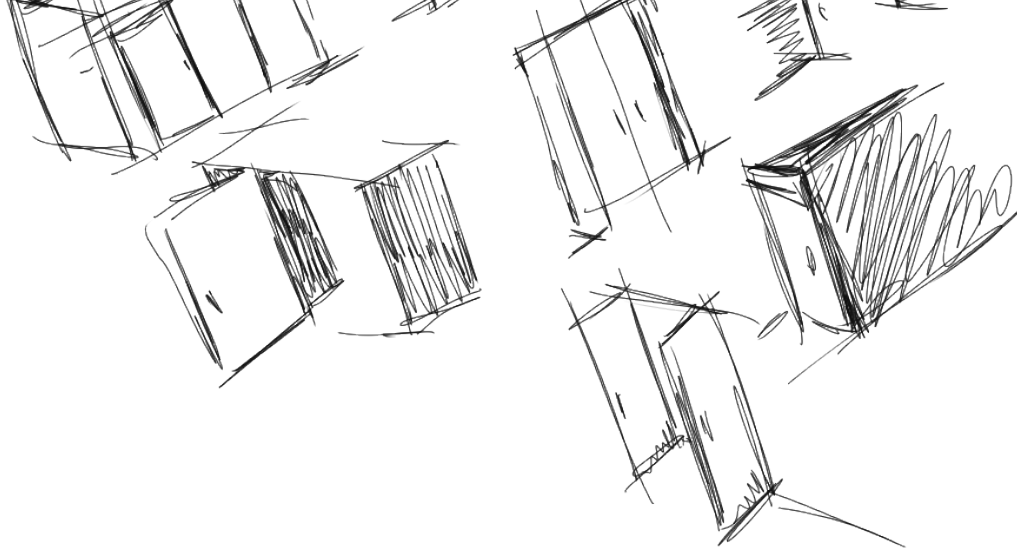

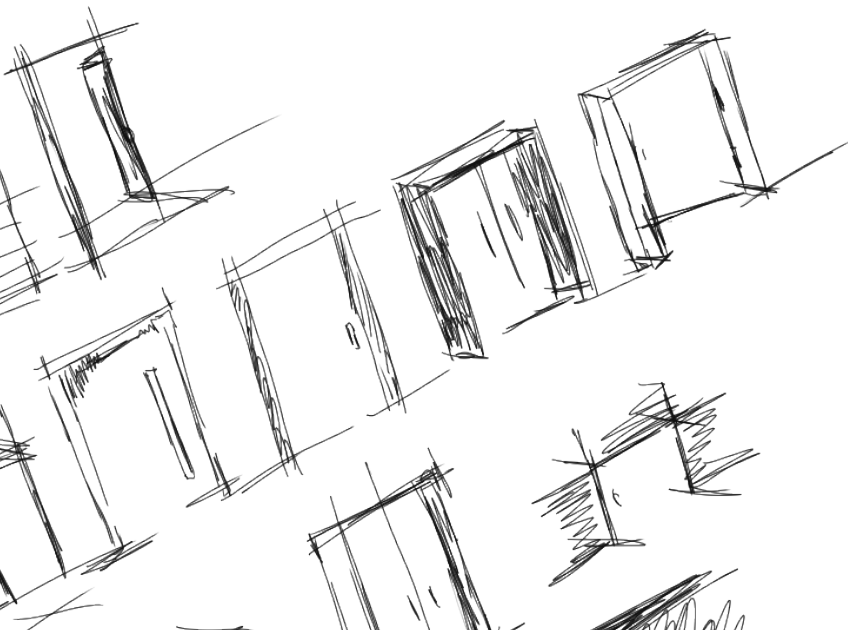

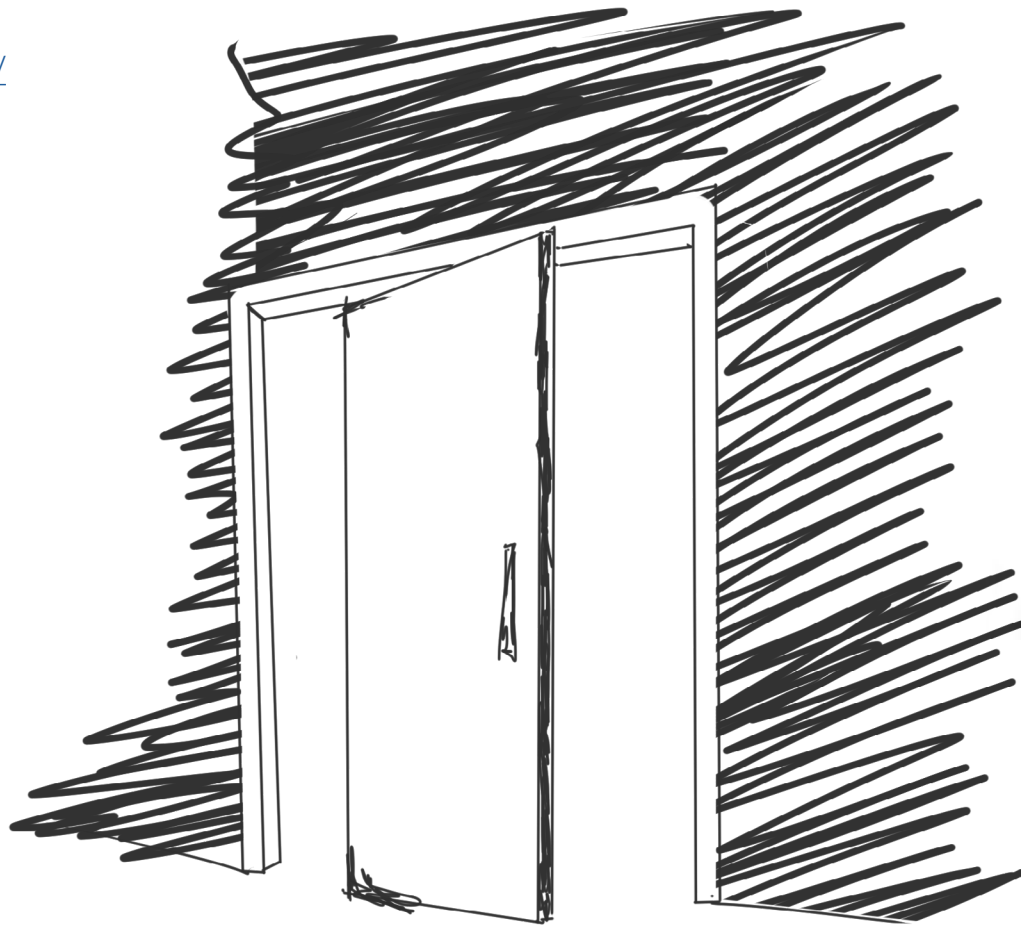

"The perfect design is innovative, functional, beautiful, and usable."

# Design applications

You are invited to design a door—entrance, interior, or somewhere in between. Think beyond the frame.

# Do you have the creativity?

## Who can participate?

Anyone, regardless of occupation. This is a creative sketch contest—no technical background is required.

## What are we looking for?

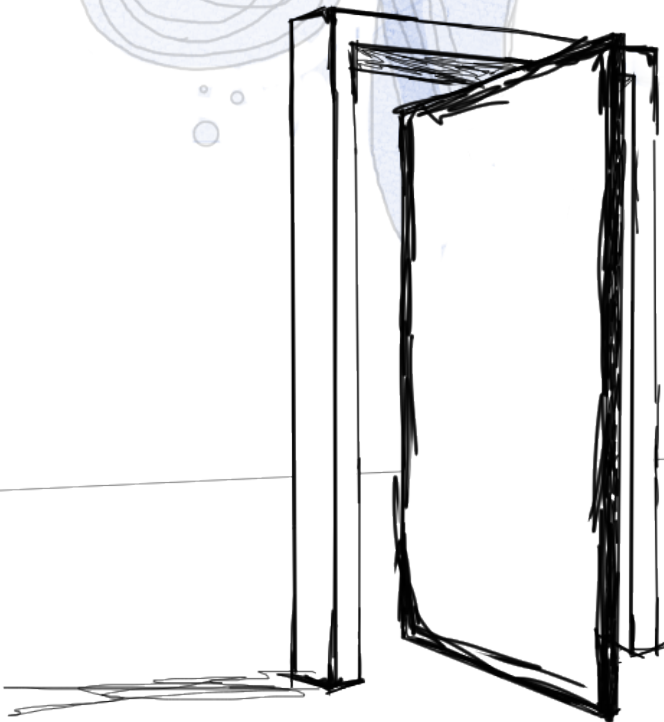

A hand-drawn sketch of a pivot door (no AI) using a FritsJurgens pivot hinge system. Think forward: concepts that are practical today and relevant tomorrow.

## What should you submit?

- A sketch of a pivot door with a FritsJurgens hinge integrated
- A brief concept note that includes:

- 1) Your inspiration
- 2) The FritsJurgens system you've selected and why
- 3) The materials required to build it
- 4) Where you envision it being used (residential/commercial, interior/exterior).

Design a pivot door that challenges convention and delivers an experience from first impression to final detail.

# How to showcase your artistry

Submit your project via the [form](#)

To ensure your concept is considered, please upload the following materials:

## High-quality sketches or renderings in PDF format

Show the design from multiple angles and highlight its unique qualities.

## High-resolution images, if available

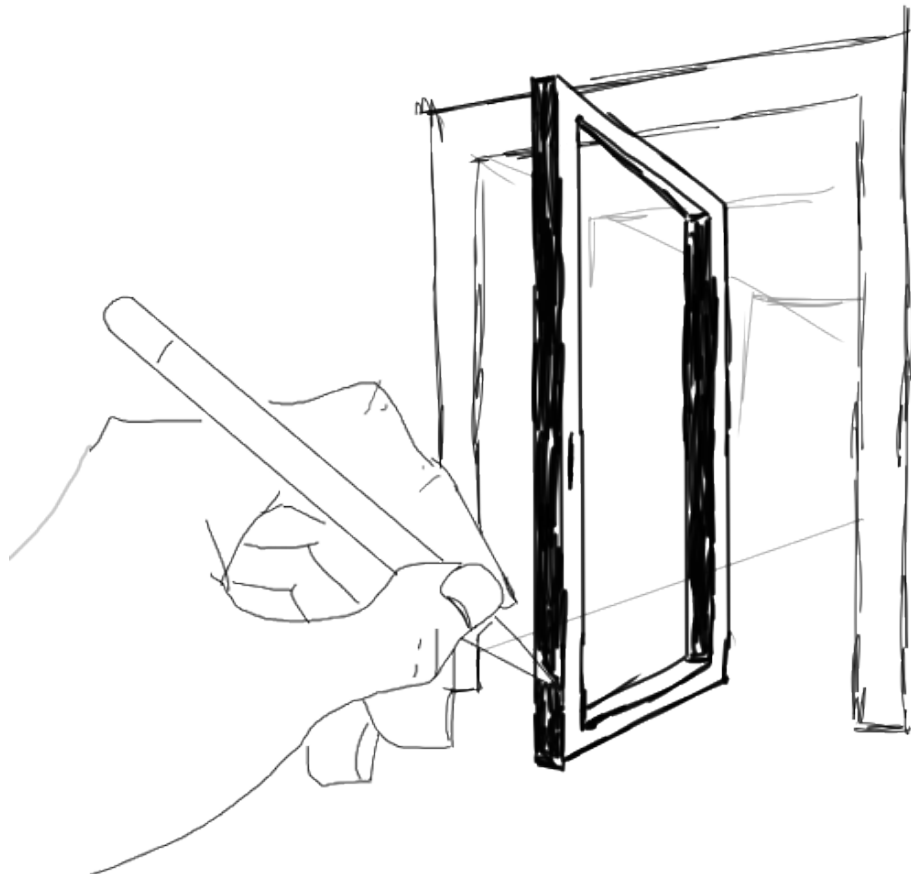

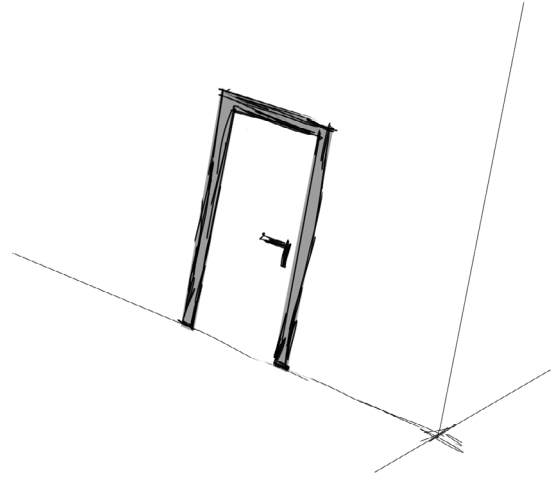

## A short concept note describing your design, its use, and what inspired it

Tell us where you envision the door being used and why it matters

## Judging round

Submissions will be reviewed by our internal team before being presented to a jury of industry leaders and the FritsJurgens team.

Please ensure your materials are complete and clearly presented — incomplete entries may not proceed to the judging round.

# Why should you enter this competition?

Our competitions are intended to bring to the fore the unseen, undiscovered, and unnoticed talent in the world. We want to invite everyone, regardless of their current occupation, to submit their sketches and drawings.

In return, we offer the following rewards to competition winners:

**Awards and certificates of excellence:** The top 10 sketches will receive a certificate, with the top 5 also receive an award in recognition of their creativity and craftsmanship.

**Cash prizes:**

First place - €1000

Second place - €500

Third place - €250

**Recognition and exposure:** The short-listed and winning projects will be prominently featured across multiple online platforms.

All the valid sketch entries would be submitted in an inspiration book.

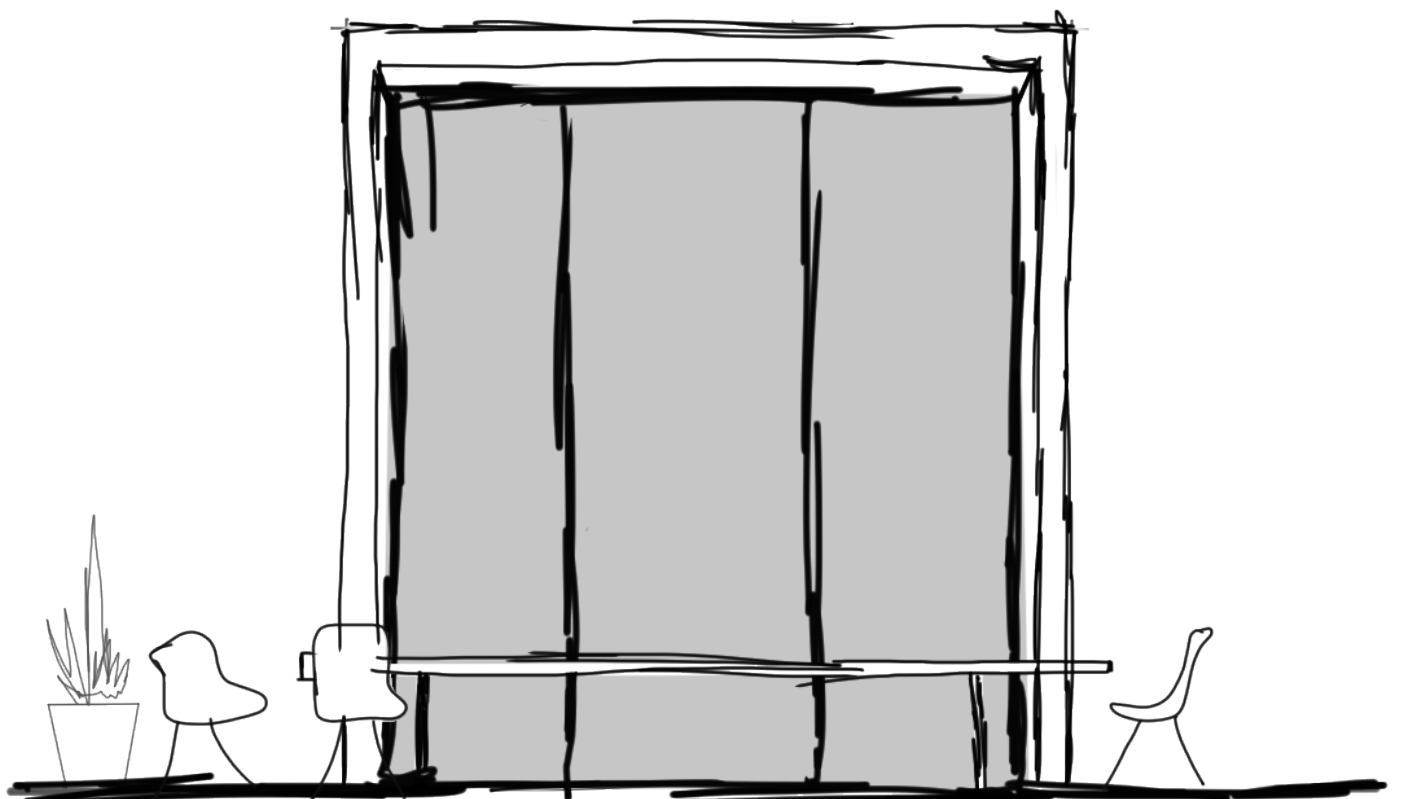

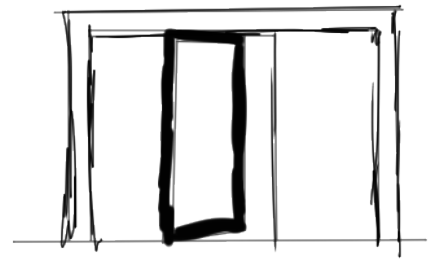

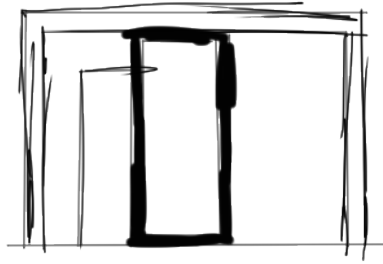

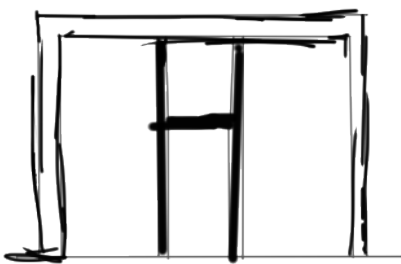

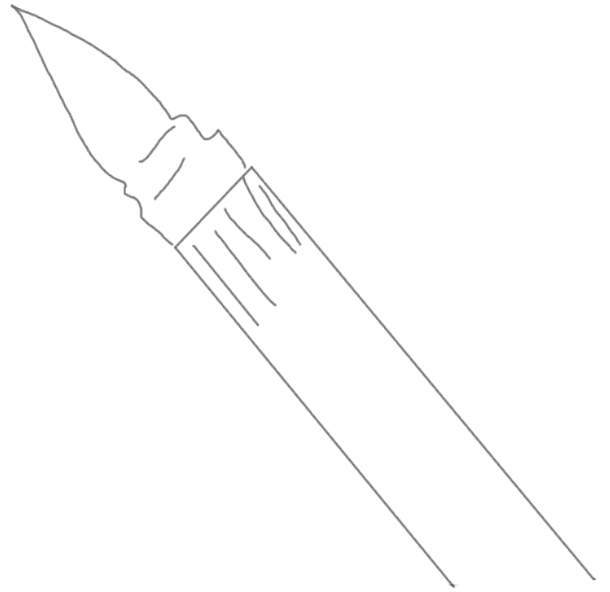

# Judging criteria

Our judging panel will evaluate the designs for creativity, ingenuity, innovation, feasibility, and aesthetics.

Your story should explain your inspiration, the function and use of the FritsJurgens pivot systems, and explore the use cases of your design.

Imagine how pivot systems can be used to transform a design concept into an experience. Bring all of your best, most creative ideas to life.
